

PANTHEON RS

POSTMODERN PENTATHLON

EDITION I

May 30 – June 7, 2027
Innsbruck → Donostia · ~2,200
km

NINE DAYS. FIVE DISCIPLINES. ONE CHAMPION.

In 708 BC, the Greeks invented the pentathlon to find one thing: the most complete competitor. Not the fastest. Not the strongest. The one who could do everything. **That idea is 2,700 years old and still unsolved.** Pantheon RS is its answer for the postmodern athlete — nine days, five disciplines, thirty-two cars, one champion. This is not a concours. It is not a rally tour. It has elements of both — and it is neither. **Every stage is scored. Every discipline counts.**

P1 TAKES: A 2027 MANTHEY PORSCHE 911 GT3 RS.
